

Suggested Akashic Record Consultation Preparation:

The Akashic Record Consultation is very interactive and is based on your questions. Prior to our appointment take time to quiet yourself and your mind. Allow the Divine Light of Peacefulness to enfold you and consider what deepest truths would be best serve you to know at this time and allow your questions to come from there. Here are some suggestions:

Look at your life circumstances or recent events. Choose the areas you need the greatest clarity.

Notice if there are any recurring patterns in your life you would like to eliminate or where deeper insight would be helpful.

Notice the individuals in your life that offer you the greatest challenge and/or frustration. Ask how you can best work with them for the highest good of all concerned and the lesson being presented.

You may also ask about improving attitudes, life purpose, direction, or lessons you are learning and how you can facilitate the learning.

This is your time. A time to be spent in Light, Love and Wisdom for your highest good and the highest good of all concerned. Please be sure to bring or fax your signed release. Thank you.

I look forward to our time together.

Joy, Light, and Laughter,
